It seems to be a known issue with the latest version of Windows 10 and the ZenPoint Digital Center which won't resolve it. For additional stability this is caused by Microsoft Store. Within Microsoft Store Microsoft Store doesn't track which applications you have installed. If you click at any point within your settings then you will see that you still have the latest version of ZenPoint installed. To avoid this to happen you have to go to the settings of Microsoft Store and switch off all updates for the Redmond Store app and thus the option of new applications for Microsoft Store. Tips and advice on to build a business plan A Business Plan Is Only Part of a Winning Strategy. In my opinion the hardest part of starting a business is having to actually write down the steps for your company. Having to plan your company can be a great benefit in promoting business and kick-starting your business plan. I know you've written down all the plans to be built that are within your business, but having to actually document what you've planned for can be very exciting and saving you hours of research. If you are ready to start working on your business plans, don't start until you have all your own personal details worked out and all the plans for your business are ready.Q: How to make my # winforms project open exe files? I am working on some.exe files and i need to make it open my forms project's exe files, like vs opens solution files. (asking this question, because i have a strange problem, i have a exe file with a form and just before closing the exe file, it gets closed...)
